Dear Victor,

I want to thank you very much for your contribution last Wednesday and for taking the trouble to come and participate.

I hope you noticed how much the people who were present appreciated what you were saying and also the way you did it. Dorothy herself would have loved it if she could have been there.

It was very interesting to be shown how different the same setting is experienced by different individuals; and to hear from Elisabeth the impression children in analysis make on those who are not. Also about Erik: I knew, of course, about the water-drinking; but I had no idea about the importance of the mirror!

Everybody said that it was a most successful ~~XXXX~~ meeting and I was very glad of that.

Very sincerely yours

Anna Freud
